

SafeNet eToken Fusion NFC

Access your most sensitive data securely Forget About Passwords

THALES

CYBERSECURITY

Simplify the User Experience with NFC

Log in with a simple tap. The NFC token delivers smooth, contactless access that blends everyday convenience with uncompromising security.

Fast Deployment - Enterprise ready

Open standards. No infrastructure required, allowing for quick rollout and simplified management at scale.

Protect Against Phishing Attacks

Phishing-resistant device powered by the FIDO protocol, designed to defend against today's most common credential-based attacks.

Multiple Device Authentications

Ensures seamless compatibility across modern devices such as Windows desktops, phones and tablets.
