SafeNet HSM Configuration Instructions

Configure SafeNet Hardware Security Module

To configure SafeNet HSM:

1. Log on to the SafeNet DataSecure Management Console.

2. In the Device tab, select **Log Configuration** > **Rotation & syslog**.

3. Click the **Edit** button in the **Syslog Settings** section.

4. For the **System** and **Audit** rows, enter the IP address for the enVision appliance in the **Syslog Server #1 IP** field.

5. You can accept the remaining default values, or enter other values as needed.

6. Click **Save** to save your changes.

SafeNet HSM Release Notes (20140812-120845)
